

ISDA SEEKS PARTNERSHIPS FOR FREIGHT GRANT

BOISE, Idaho – The Idaho State Department of Agriculture is seeking partnerships for a grant it has received to help defray costs for shipping wheat to Mexico.

The \$64,000 grant, which will assist in freight and sample costs for shipping Identity Preserved Klastic Hard White Wheat to Mexico, is currently open to the application process. That process will run through September 30, 2004, or until all of the funds have been distributed. Funding will be distributed on a first-come, first-served basis, and it is available only for partial costs – the balance of the costs must be paid by the shipper.

Qualifications include, but are not limited to: wheat shipments that are car loads of Identity Preserved Klastic Hard White Wheat to Mexico; shippers who already have miller contacts in Mexico; recipient millers who agree to test loads and report results; and shippers who have export experience.

For more information contact Mary Symms-Pollot at 208-332-8538 or msymms@agri.state.id.us.
